PROFESSIONAL SUMMARY

I am a web developer with a vast array of knowledge in different front end and back end technologies, responsive frameworks, and databases. My objective is simply to be the best web developer that I can be and to contribute to the technology industry all that I know and can do. I am dedicated to perfecting my craft by learning from more seasoned developers, remaining humble, and continuously making strides to learn all that I can about development. I believe that my understanding of problem solving and complex algorithms are also skills that have and will continue to contribute to my overall success as a developer.
